MAXPRO®

Non Contact Voltage Tester, Flashlight

• Voltage detection 12..300VAC
• Zero fire wire identification
• Continuity test function
• Audible alarm and visual indication
• Built-in LED flashlight
• Screwdriver function
• LCD display with backlight

Technology Parameters	
AC Voltage Range [Un]	12..300VAC, 50/60Hz
Measurement Error	±(5%+3)
Humidity	≤95%
Altitude	≤2000m
Operating Temperature	0..40°C
Safety Level	CAT.III 300V
Display	LCD, backlight
Power Supply	1xAAA battery (not included)

Mechanical Data	
Product Dimensions	147x27x23mm
Product Weight	38g
Housing	thermoplastic
Indication	Sound & light double alarm
Low Battery Indication	Yes
Auto Power Off	Yes
Clip	Integrated pen clip

Codes	
CN8 (HS)	90303090
EAN	4742455001589

Functions

• AC voltage detection
• Inductive non-contact measurement
• Battery polarity detection
• Zero-fire line test
• Continuity test
• Breakpoint detection
• Flashlight lighting
• Button operation

Package Content

• 1x Voltage tester
• 1x Manual
• 1x Box
